

Lancaster Neurology
834 W. Meeting St
Lancaster, SC 29720
Dr. Tooba Khan

If you are coming to the office for evaluation for headaches, please answer the following questions. In order to get the best care please bring all your bottles of medication.

1. How long have you suffered from headaches? (example: 3 weeks, 3 months, 3 years)

2. How often are you having headaches? (example: 2 times a week, or 3 times a month)

3. How long does your headaches last? (example: 1 hour, 4 hour, or whole day)

4. Where is your headache located? (example: front, back, temples, behind the eye, or neck)

5. What do you do to improve your headache?

6. What makes your headaches worse?

7. Is your headache associated with nausea, vomiting, or sensitivity to light? Please specify.

8. Do you take over the counter medications? (example: Tylenol, Excedrin Migraine, and Goody powders)

9. Do you have difficulty falling asleep?

10. Have you ever suffered from kidney stones or glaucoma?
